# ABOUT US

Dolphin Polyfill Pvt. Ltd. is India's one of The leading Manufacturers and Exporters Of color Masterbatches, Additives and Filler Compounds for the plastic extrusion industries. Dolphin Polyfill Pvt. Ltd. Is a proud part of Dolphin group. Established in 1986. Our state of The art product development and application Facilities are located in Rajkot - Gujarat & Pune - Maharashtra (India) with a total annual manufacturing Capacity of over 50,000 mt. A company with strong Global aspirations, we have already made our presence Felt in the European, USA, African, UAE and Asian markets.

## OUR VISION

All our actions are focused towards the Total customer satisfaction in our growth story.

Through our internal and external efforts, we create value for money by constantly innovating our processes.

Active participation of employees, honesty of purpose And dedication towards objectives are the foundations of our vision.

## OUR MISSION

Our mission is a statement of what we stand for. It includes the continuous communications, Activities and association with all our customers. Our business strategy is to put up Top-notch Technology in the field of Masterbatch and Filler Compound and ultimately provide the sophisticated Quality product to enhance the product value of customers.

# EVERY SMALL PIECE OF PLASTIC MATTERS

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

We at Dolphin Polyfill Pvt Ltd, ensures timely delivery, timely shipments with local and export palletize packing.

Our team of experts has been handling the shipment tracking and exception handling services for over 10 years. We serve as your extended team of logistics experts to ensure that your deliveries are always on-time; exceptions are identified in real-time and skilfully resolved. So that, you do not incur losses due to customer compliance issues or harm your customer's trust.

## GLOBAL REACH

DPPL (Dolphin Polyfill Private Limited) global business spans over countries. Current presence African countries, Thailand, Dubai and some Asiatic countries. Focused regions including North America, Latin America, Asia-pacific, western Europe, Central Europe, and middle east. Our world-wide reach means we have A global network of experts and coordinated systems in place to provide clients With world-best prices. The company provides a wealth of product solutions that Contribute to its customers' competitiveness and productivity in multiple plastic Industries. Founded in 2013 Gujarat - India, DPPL has a global presence extending To more than in over countries.

DPPL's global network shares the one 'Business DNA, which is based on the Same philosophies and culture. In every country, you'll receive professional And reliable assistance from teams that believe in local, flexible and personal Service. DPPL's network benefits from the strong global presence, established Industry relations and World-wide recognition of the Dolphin Brand.

## Research & DEVELOPMENT

### Expertise in color matching

Our well equipped R&D facilities frequently deliver a wide range of new and customized solutions for color masterbatches with excellent price benefit ratios which we can pass on to our customers. This technology and innovation center which employs dedicated polymer technologists is centered on new product development and providing technological support to our customers. Its role in utilizing and developing applications acts as a significant driver to increase our cut throat competitions and market share.

### Imaginary headship and professional management

We are professionally managed by our highly experienced promoters, who are technocrats with strong leadership and industrialist vision, ably assisted by an prominent Board of Directors. We are run by highly motivated, technically qualified professional managers.

### Trained human resources

Our human resources talent pool is well qualified, skilled and performance driven. It consists highly qualified Polymer Engineers with the latest technical proficiency and innovative capabilities. These are the crucial assets that have helped us to achieve and uphold our headship status.

“  
WE DELIVER  
**GREATNESS**  
”

## ADVANCE QUALITY ASSURANCE

For the best quality product, we have implemented the rigorous quality control Facility at our based plants. We have honored the prominent iso 9001:2008 Certification by TUV SUD ASIA for stick on to tough quality standards. As a part of Constant efforts to preserve highest quality standards, total quality management is pursued at every level of manufacturing process. To make sure the quality to the Customers, all the production batches are focused to process ability tests and are Made on classic proces.

## ADVANCE TESTING FACILITIES

- Melt Flow Index Machine
- Computerized Spectrometer
- Lab Mixer
- Two Roll Mill
- Single Screw Co-Rotating Extruder
- Twin Screw Co-Rotating Extruder
- Blown Film Extruder
- (FPV) Filterability Test Extruder
- Injection Moulding Machine
- Oven & Muffle Furnace
- Color Matching Light Cabinet

## The quality control facilities are being enhanced to include world class testing;

- Injection Moulding Machines for ASTM & ISO Test Specimen
- Astm & ISO Moulds
- Izod / Charpy Impact Test
- FTIR Equipments
- Tensile & Flexural Test

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

## OUR PRODUCT COMPASS

- White Masterbatch
- Anti-slip Masterbatch
- Foaming Agent Masterbatch
- Anti-oxidant Masterbatch
- Anti-static Masterbatch
- PP Compound
- Antiblock-agent
- Cleaning Agent Clarifier
- Polymer Processing Additive (PPA)
- UV Masterbatch
- Color Masterbatch
- Impact Modifier
- Black Masterbatch
- Dessicant
- Filler Compound
- Optical Brightner
- Flame Retardant

# WELCOME TO THE COLORFUL WORLD OF MASTERBATCH

We are specialists in the colouring and refining of thermoplastics. We offer colour masterbatches, additive masterbatches and combined masterbatches.

## WHITE / BLACK MASTERBATCH

We offer extensive range of white and black master batches for whole spectrum of applications. Such applications range from pipes, cables, packaging films to the injection moulding of electronic parts, where high level of gloss properties and excellent dispersion are required. In addition to the standard programme of white and black, we can satisfy customer-specific requirements for instances, applications with special carrier polymers or the integration of other additives.

## COLOUR MASTERBATCH

Our experience in the production of colour masterbatches is reflected in an outstanding way by our comprehensive library of colour and polymer combinations. Upon request, our colour masterbatch is adapted to conform exactly to specific customer requirements. In several application areas, we are the global market leader with our premium quality colour masterbatch and can boast a high level of appreciation on the part of numerous international top-level brands from the food, cosmetics and lifestyle industries.

## ADDITIVE MASTERBATCH

In addition to the colouration of plastics, we are specialists in the finishing of plastics with functional additives. Countless additive and polymer combinations, ranging from antiblock masterbatches to laser additives to UV stabilisers, make up our constantly growing range of products, which is continually adapted to meet the needs of the market. In the area of flameretardant equipment for a wide variety of plastic products, our flameretardant masterbatch is considered the benchmark.

## COMBINED MASTERBATCH

Our knowledge and experience from many years of producing colour and additive masterbatch has been put to optimal use in our combined masterbatch products. The result is a multitude of ready-made formulas featuring the following advantages in comparison with individual products:

- 01** Easier Dosing
- 02** Rapid Dispersion
- 03** Cost Efficiency

# OUR BUSINESS UNITS

# 01

**DOLPHIN<sup>®</sup>**  
POLY FILL PVT. LTD.

## NOWOVEN FABRIC, BREATHABLE / NON-BREATHABLE FILM

### Products

- White Masterbatch
- Black Masterbatch
- Color Masterbatch
- Breathable Film Compound
- UV Masterbatch
- Softing Masterbatch
- Processing Additive
- Optical Brightner
- Anti-static Masterbatch
- Anti-oxidet Masterbatch
- Fire Retardat Masterbatch
- OXO Biodegradable Masterbatch

### Applications

- Nonwoven Fabric
- Breathable Film Compound
- Non-breathable Film Compound

# 02

**DOLPHIN<sup>®</sup>**  
POLY FILL PVT. LTD.

## WOVENSACK INDUSTRIES

### Products

- White Masterbatch
- Black Masterbatch
- Color Masterbatch
- UV Masterbatch
- Optical Brightner
- PPA Masterbatch
- Anti-oxidet Masterbatch
- Slip Masterbatch

### Applications

- Synthetic Roofing Underlayment
- Pond Liners
- Tarpolin / Cross Laminated Tarpolin
- Contaier Bags
- Fabric Bags
- Geotextile
- Cement Bags

# 03

## FLEXIBLE PACKAGING

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

### Products

- White Masterbatch
- Color Masterbatch
- Optical Brightner
- Slip Masterbatch
- UV Masterbatch
- PPA Masterbatch

### Applications

- CPP Films
- BOPP Films
- Extrusion Coating
- Blow Film
- Food Packaging
- Carry Bag
- Garbage Bag
- Stretch Film

# 04

## PP ROPES & HDPE FILAMENTS

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

### Products

- White Masterbatch
- Anti-static Masterbatch
- Anti-oxidant Masterbatch
- PPA Masterbatch
- Black Masterbatch
- UV Masterbatch
- Optical Brightner
- Fire Retardat Masterbatch
- Color Masterbatch

### Applications

- Braided Net
- Twisted Net
- Knotless Net
- Ropes
- Safety Net
- Anti-bird Netting

# 05

## AGRICULTURE

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

### Products

- White Masterbatch
- Color Masterbatch
- Desiccant Masterbatch
- Anti-block Masterbatch
- Black Masterbatch
- UV Masterbatch
- PPA Masterbatch
- Anti-oxident Masterbatch

### Applications

- HDPE Pipes
- Drip Irrigation Pipes
- Geomembrane
- Green House
- Mulch Film
- Shade Net
- Silage Film

# 06

## INJECTION MOULDING & EXTRUSION BLOW MOULDING

**DOLPHIN**<sup>®</sup>  
POLY FILL PVT. LTD.

### Products

- White Masterbatch
- Pearl Masterbatch
- Metallic Masterbatch
- Fluorescent Masterbatch
- Glitter Masterbatch
- Color Masterbatch

### Applications

- Injection Moulding
- Roto Moulding
- Injection Blow Moulding

We make every last item **Extraordinary**, so your **Business will be top-notch**

## The secret of OUR SUCCESS

Thanks to many years of industry experience in plastics processing and by continuous Training and employee development programmes, We have at our disposal the highest degree of Technical expertise.

In this way our high level of quality in the area of the Development and production of colour and additive Masterbatches for plastics processing is confirmed.
