“DON'T MAKE TREES RARE, KEEP THEM WITH CARE”

We're The Master in
MASTERBATCHES

Company Overview

Regarding Us

Dolphin Polyfill Pvt. Ltd. is India's one of The leading Manufacturers and Exporters Of color Masterbatches, Additives and Filler Compounds for the plastic extrusion industries. Dolphin Polyfill Pvt. Ltd. Is a proud part of Dolphin group. Established in 1986. Our state of The art product development and application Facilities are located in Rajkot - Gujarat (India) with a total annual manufacturing Capacity of over 50,000 mt. A company with strong Global aspirations, we have already made our presence Felt in the European, USA, African, UAE, UK, Australia, Middle East and Asian markets.

Our Vision

All our actions are focused towards the Total customer satisfaction in our growth story. Through our internal and external efforts, we create value for money by constantly innovating our processes. Active participation of employees, honesty of purpose and dedication towards objectives are the foundations of our vision.

Our Mission

Our Mission is a statement of what we stand for. It includes the continuous communications, Activities and association with all our customers. Our business strategy is to put up Top-notch Technology in the field of Masterbatch, Filler Compound and ultimately provide the sophisticated Quality product to enhance the product value of customers.

**“TRUSTED
PARTNERS
FOR YOUR
PLASTIC NEEDS”**

Operational Excellency

We at Dolphin Polyfill Pvt Ltd, ensures timely delivery, timely shipments with local and export palletize packing. Our team of experts has been handling the shipment tracking and handling services for over 10 years. We serve as your extended team of logistics experts to ensure that your deliveries are always on-time; exceptions are identified in real-time and skilfully resolved. So that, you do not incur losses due to customer compliance issues or harm your customer's trust.

EXTRAORDINARY PROPERTIES

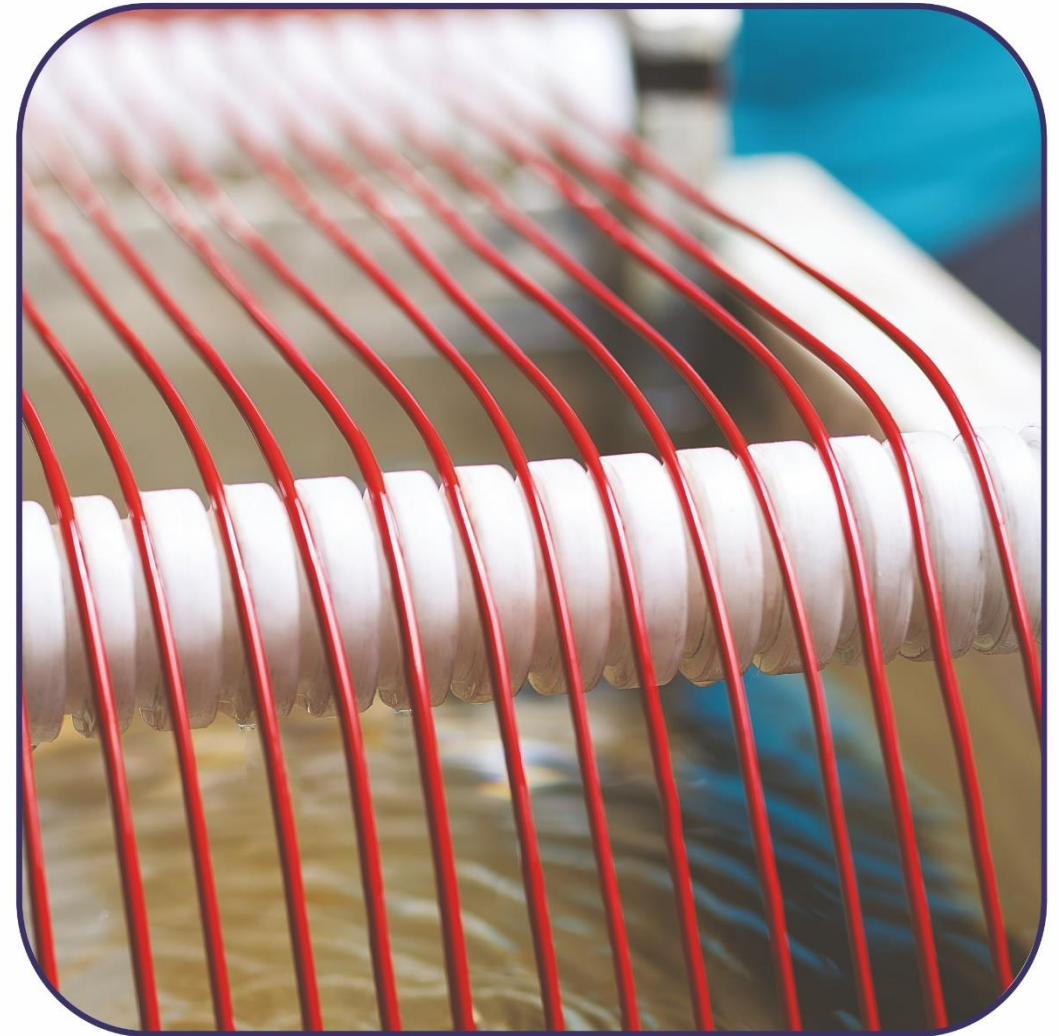

COLORED BY REQUEST

Global Reach

DPPL (Dolphin Polyfill Private Limited) has global business spans over countries. We have Current presence African countries, Thailand, Dubai and some Asiatic countries. Our Focused region includes North America, Latin America, Asia-pacific, western Europe, Central Europe, and middle east. Our world-wide reach means we have A global network of experts and coordinated systems in place to provide clients With world-best prices. The company provides a wealth of product solutions that Contribute to its customers' competitiveness and productivity in multiple plastic Industries. Founded in 2013 Gujarat - India, DPPL has a global presence extending to more than in over countries.

DPPL's global network shares the one 'Business DNA, which is based on the Same philosophies and culture. In every country, you'll receive professional And reliable assistance from teams that believe in local, flexible and personal Service. DPPL's network benefits from the strong global presence, established industry relations and World-wide recognition of the Dolphin Brand.

**WE DELIVER
GREATNESS**
”

Expertise in Color Matching

Our well equipped R&D facilities frequently deliver a wide range of new and customized solutions for color masterbatches with excellent price benefit ratios which we can pass on to our customers. This technology and innovation center which employs dedicated polymer technologists is centered on new product development and providing technological support to our customers. Its role in utilizing and developing applications acts as a significant driver to increase our cut throat competitions and market share.

Imaginary Headship and Professional Management

We are professionally managed by our highly experienced promoters, who are technocrats with strong leadership and industrialist vision, ably assisted by an prominent Board of Directors. We are run by highly motivated, technically qualified professional managers.

Trained Human Resources

Our human resources talent pool is well qualified, skilled and performance driven. It consists highly qualified Polymer Engineers with the latest technical proficiency and innovative capabilities. These are the crucial assets that have helped us to achieve and uphold our headship status.

Advance Quality Assurance

For the best quality product, we have implemented the rigorous quality control Facility at our based plants. We have honored the prominent iso 9001:2008 Certification by TUV SUD ASIA for stick on to tough quality standards. As a part of Constant efforts to preserve highest quality standards, total quality management is pursued at every level of manufacturing process.

To make sure the quality to the Customers, all the production batches are focused to process ability tests and are Made on classic process..

Comprehensive Testing Solution

ADVANCE TESTING FACILITIES

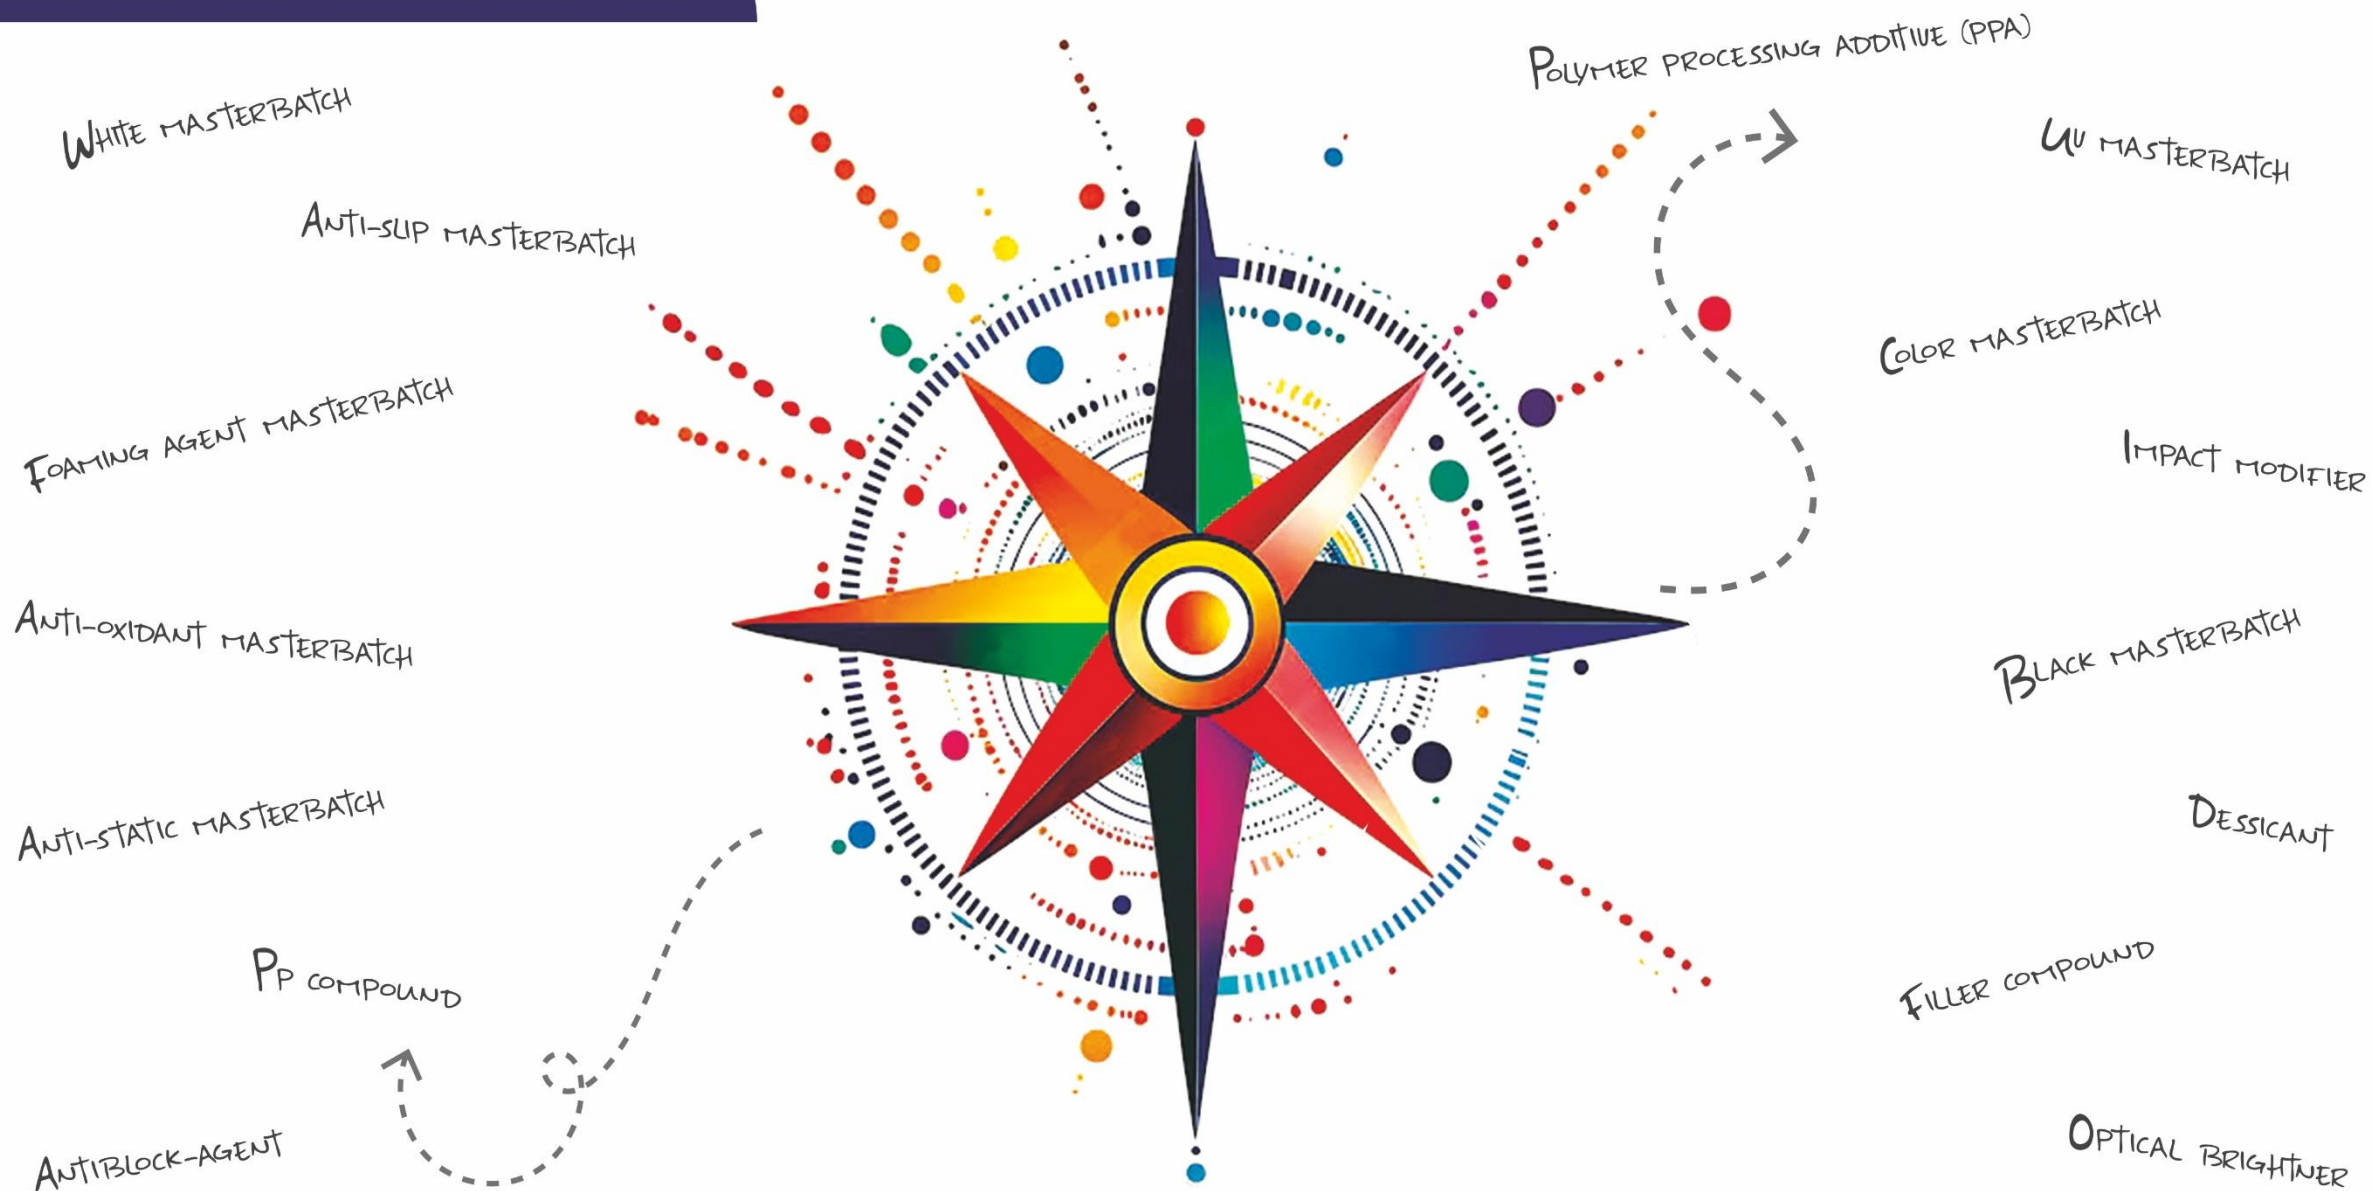

- Melt Flow Index Machine
- Computerized Spectrophotometer
- Lab Mixer
- Two Roll Mill
- Single Screw Co-Rotating Extruder
- Twin Screw Co-Rotating Extruder
- Blown Film Extruder
- (FPV) Filterability Test Extruder
- Injection Moulding Machine
- Oven & Muffle Furnace
- Color Matching Light Cabinet
- Carbon Black Content Machine

The quality control facilities are being enhanced to include world class testing;

- Injection Moulding Machines for ASTM & ISO Test Specimen
- Astm & ISO Moulds
- Izod / Charpy Impact Test
- FTIR Equipments
- Tensile & Flexural Test

Our Product Compass

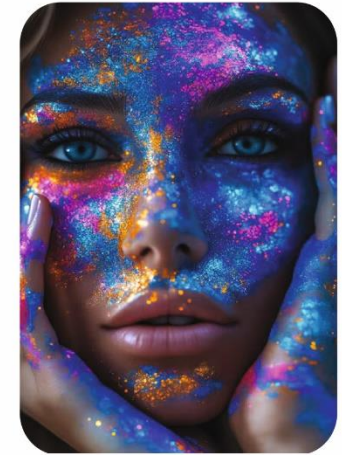

We make
every last item
Extraordinary,
so your
**Business will
be Top-Notch**

Epitome of Masterbatches

WHITE / BLACK MASTERBATCH

We offer extensive range of white and black masterbatches for whole spectrum of applications. Such applications range from pipes, packaging films to the injection moulding of electronic parts, where high level of gloss properties and excellent dispersion are required. In addition to the standard programme of white and black, we can satisfy customer specific requirements for instances, applications with special carrier polymers or the integration of other additives.

COLOUR MASTERBATCH

Our experience in the production of colour masterbatches is reflected in an outstanding way by our comprehensive library of colour & polymer combinations. Upon request, our colour masterbatch is adapted to confirm exactly to specific customer requirements. In several application areas, we are the global market leader with our premium quality colour masterbatch and can boast a high level of appreciation on the part of numerous international top-level brands.

ADDITIVE MASTERBATCH

In addition to the colouration of plastics, we are specialists in the finishing of plastics with functional additives. Countless additive & polymer combinations, ranging from antiblock masterbatches to laser additives to UV stabilisers, make up our constantly growing range of products, which is continually adapted to meet the needs of the market. In area of flameretardant equipment for a wide variety of plastic products, our flameretardant masterbatch is considered the benchmark.

COMBINED MASTERBATCH

Our knowledge & experience from many years of producing colour and additive masterbatch has been put to optimal use in our combined masterbatch products. The result is a multitude of ready-made formulas featuring the following advantages in comparison with individual products:

- 01 Easier Dosing
- 02 Rapid Dispersion
- 03 Cost Efficiency

Our Supply Scope

“

Unleash the Potential of Your BOPP and CPP Films

”

PRODUCT RANGE

Organic Antiblock | Inorganic Antiblock | Slip Masterbatch | White Masterbatch

Optimum production of BOPP and CPP films with Dolphin Masterbatches

Flexible Packaging

PRODUCTS:

- White Masterbatch
- UV Masterbatch
- Color Masterbatch
- PPA Masterbatch
- Optical Brightner
- Slip Masterbatch

APPLICATIONS

- CPP Films
- Food Packaging
- BOPP Films
- Carry Bag
- Extrusion Coating
- Garbage Bag
- Blow Film
- Stretch Film

Non Woven Fabric

PRODUCTS:

White Masterbatch	Processing Additive
Black Masterbatch	Optical Brightner
Color Masterbatch	Anti-static Masterbatch
Breathable Film Compound	Anti-oxidant Masterbatch
UV Masterbatch	
Softening Masterbatch	

APPLICATIONS

Nonwoven Fabric
Breathable Film Hygine Nonwoven Fabric
Non-breathable Film Hygine Nonwoven Fabric

WovenSack Industries

PRODUCTS:

White Masterbatch	Optical Brightner
Black Masterbatch	PPA Masterbatch
Color Masterbatch	Anti-oxidant Masterbatch
UV Masterbatch	Slip Masterbatch

APPLICATIONS

Synthetic Roofing Underlayment
Pond Liners
Tarpolin / Cross Laminated Tarpolin
Contaier Bags
Fabric Bags
Geotextile
Cement Bags

Agriculture

PRODUCTS:

White Masterbatch	Desiccant Masterbatch
Black Masterbatch	PPA Masterbatch
UV Masterbatch	Anti-block Masterbatch
Color Masterbatch	Anti-oxidant Masterbatch

APPLICATIONS

HDPE Pipes	Geomembrane
Mulch Film	Silage Film
Drip Irrigation Pipes	Green House
Shade Net	

PP Ropes & HDPE Filaments

PRODUCTS:

White Masterbatch	UV Masterbatch
Black Masterbatch	Anti-oxidant Masterbatch
Color Masterbatch	Optical Brightner
Anti-static Masterbatch	PPA Masterbatch

APPLICATIONS

Braided Net
Safety Net
Twisted Net
Anti-bird Netting
Knotless Net
Ropes

The Secret of OUR SUCCESS

Thanks to many years of industry experience in plastics processing and by continuous Training and employees development programmes, We have at our disposal the highest degree of Technical expertise.

In this way our high level of quality in the area of the Development and production of colour and additive Masterbatches for plastics processing is confirmed.

Our Business Affiliations:

Injection Moulding & Extrusion Blow Moulding

PRODUCTS:

White Masterbatch	Color Masterbatch
Glitter Masterbatch	Metalic Masterbatch
Pearl Masterbatch	Fluorescent Masterbatch

APPLICATIONS

Injection Moulding
Roto Moulding
Injection Blow Moulding
